

BMLS invites you to join the 5 Years Anniversary Symposium

2 June 2016

Welcome at 12:00

Enrico Schleiff, BMLS Director

Ivan Dikic, BMLS

» Shared pathogenic mechanisms from bacterial infections to neurodegenerative diseases «

Yosef Shiloh, Tel Aviv University

» The DNA damage response: at the interface between genome stability and human morbidity «

Nir Keren, The Hebrew University

» Remodeling the photosynthetic apparatus to fit extreme environmental conditions «

Amparo Acker-Palmer, BMLS

» Wiring neuronal and vascular networks in the brain «

Christian Pohl, BMLS

» The cell biology of axial patterning in the *C. elegans* embryo «

Deborah Fass, Weizmann Institute of Science

» Sewing the Original "Smart Fabric": Catalysts of Extracellular Matrix Assembly «

Achilleas Frangakis, BMLS

» The structure and function of cell-cell junctions visualized by electron tomography «

Hosts: Enrico Schleiff & Martin Grninger

Biologicum
Seminar Room H1 (-1.202)

Campus Riedberg, Goethe University
Max-von-Laue-Straße 13
60438 Frankfurt

Buchmann Institute
for Molecular Life Sciences
